INTOLERANCIA ALIMENTARIA

Estudio genético para predisposición alimentaria

ADELGAZA CON SALUD

Salud, Nutrición y Deporte

ESTUDIO DE ADN

El **estudio del ADN** nos permite conocer aquellos riesgos a los que nuestro organismo se expone, ya sea por nuestros hábitos de vida, por nuestra herencia genética o por nuestra alimentación.

Todos estos factores son valorados por nuestra unidad de **consejo genético** y nos permite dar una **predicción de riesgo** para realizar una serie de pruebas orientadas a un número amplio de enfermedades.

PRODUCTOS DESTACADOS

● ANÁLISIS GENÉTICOS

NUTRIGENETIC

SPORTGENETIC

ESTÉTICA

DENTALGENETIC

OF TALMOGENETIC

OTROS TEST GENÉTICOS

LA BÚSQUEDA DEL FÁRMACO MÁS EFICAZ PARA CONTROLAR MI ENFERMEDAD CARDIOVASCULAR.

Pide Cita para el Test

P450 crea **CardioGenetic** como un servicio de *medicina preventiva* que determina la predisposición genética que tiene una persona de desarrollar de forma prematura enfermedades **cardiovasculares** y los factores asociados a ella.

A través de este servicio evaluamos las variantes genéticas relacionadas con la predisposición a las enfermedades cardiovasculares (hipertensión arterial, aterosclerosis o trombosis venosa, etc.).

El resultado del test es un informe que aporta indicaciones precisas que permiten *tomar medidas y elaborar un plan preventivo* que reduce al mínimo el riesgo derivado de estas posibles variantes, permitiéndonos así establecer un estilo de vida más saludable y prevenir el desarrollo de estas enfermedades.

CARDIOPHARMA

¿QUÉ INCLUYE ESTE PROGRAMA?

SALUD METABÓLICA

ENFERMEDADES CORONARIAS

HIPERTENSIÓN

ENFERMEDADES ARTERIALES PERIFÉRICAS

Conoce tu **salud metabólica** para evitar enfermedades cardiovasculares. Este apartado mide el riesgo genético de tener:

- Niveles elevados de **LDL** (aumento del riesgo de sufrir aterosclerosis).
- Niveles elevados de **triglicéridos** (aumento del riesgo de infarto de miocardio y angina).

The screenshot displays a web application for tablets. On the left, there's a sidebar with filters: 'ALL' and 'MARCAS' (Samsung, Apple, Huawei, Lenovo, ASUS, Alcatel, BQ, Archos). Below this is a 'RANGO DEL PRECIO' section with input fields for '0.0' and '503', and a 'RANGO DEL PRECIO SLIDER' with a price range slider. The main content area is titled 'Tablets' and shows a grid of product listings. Each listing includes a 'NEW' badge, a product image, the product name, price, and a star rating. The products listed are Alcatel Pixi 3 7", Alcatel Pixi 3 8", Alcatel Pixi 3 8", Archos 101E NEON 10.1 1GB 16GB, Archos 70 Oxygen 32GB, and Archos 97c Platinum 32GB. Each product has a 'WISH LIST' and 'SHOPPING CART' button. The right side of the page has a 'TABLETS' header and a 'Sort By: Name (A - Z)' dropdown, along with a 'Show: 24' dropdown.

The footer section contains three circular icons: a person eating fruit, a person running, and a heart with a stethoscope. To the right, there's a section titled 'SALUD METABOLICA' with sub-sections 'ENFERMEDADES CORONARIAS' and 'HIPERTENSION'. Below this, there's a section titled 'ENFERMEDADES METABOLICAS PERIFERICAS' with a paragraph of text and a list of bullet points.

The screenshot shows a web application titled "DEMO: AddressBook" with a "CODENERIX" logo in the top right. The page is for "Adding new contact". It features several form fields: "Name" (empty, with a red border and a red arrow pointing to it), "Alias" (containing "asdf", with a blue arrow pointing to it), "Borndate" (empty, with a blue arrow pointing to it), "Last name" (containing "asdf", with a green checkmark and a blue arrow pointing to it), "Organization" (empty, with a blue arrow pointing to it), and "Address" (empty). At the top and bottom of the form are "Go back" and "Save" buttons. Two orange boxes highlight these buttons, and a red arrow points to the "Name" field, indicating validation errors.

How does it work?

```
name = models.CharField(verbose_name=_(u'nombre'), max_length=32)
number = models.PositiveIntegerField(verbose_name=_(u'número'))
